SIP Network Surveillance Systems

SIP-Series Surveillance

eLine Technology's SIP-Series of IP cameras and NVRs provides superior quality and reliability. eLine Technology's wide selection of body styles, features, and image resolutions provide the flexibility to customize and optimize your surveillance system to fit your company's specific goals. A 2MP IP cameras field of view is about four times greater than a traditional analog system. The SIP-series is built with preformance with dual streaming, and high profile H.264, models range from 720p to 5 mega pixel resolutions. With true ICR day/night operation.

Image Quality

- Choose from 4 HD options
- Reliable WDR sensor
- Full 30 fps 1080p
- Noise reduction technology
- W.D.R Options
- Future Proof Technology

Edge Storage

- Cameras with internal Micro SD Card Slots for maximum of 64GB storage
- Increases stability while decreasing network bandwidth issues

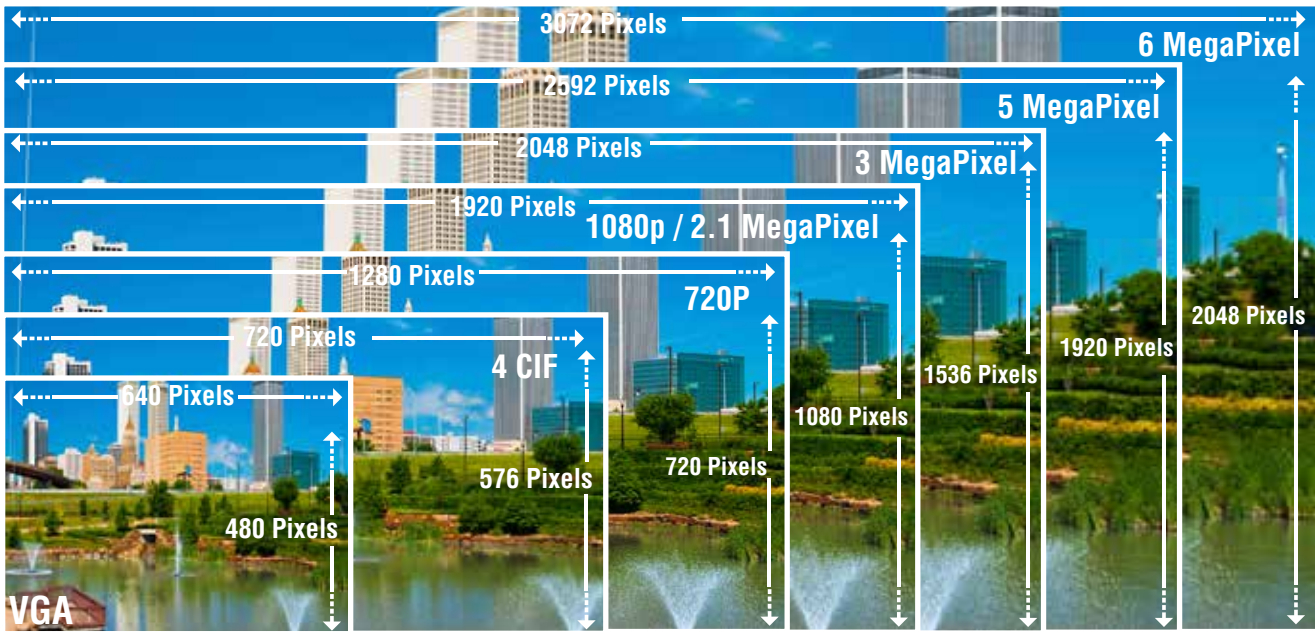

Easy Install

- Zero configuration UPNP enables auto search when the camera connects to PC or iPad
- uPnP discovery wizard connects NVRs & Cameras
- Search tools to find and set IP address

Reliability

- Three layer watch dog system well designed radiating structure
- Embedded software
- Based on a Linux platform for stability and reliability.

RESOLUTION OPTIONS

Main Stream Resolutions & Frame Rates

1280x720 pixels for 720p @ 30fps
 1920x1080 pixels for 2mp @ 30fps

2048x1536 pixels for 3mp @ 20fps
 2592x1920 pixels for 5mp @ 10fps

ADVANCED FEATURE OPTIONS

W.D.R

The Wide Dynamic Range function adjusts exposure in areas of the frame to maintain optimum detail in both dark and light areas providing optimum visibility wherever the camera is placed.

Available in select SIP models.*

OFF

ON

Fisheye

A fisheye lens gives a wide overview of highly populated and high traffic areas. One fisheye lens is able to provide extra-wide coverage and a 180 degree view for one camera vs using multiple IP cameras.

Available in select SIP models.*

Audio Options

Enable audio or add two-way audio to allow communication between users and SIP cameras

Available in select SIP models.*

Alarm Output

Alarm devices can be setup to trigger alarm signals, this allows integration with burglar and home automation systems.

Mounting Hardware Options

SIP NVRs

With your choice of 4, 8, 16 and 32 channel NVRs eLine Technology's line of SIP-NVRs has the flexibility to accommodate for small and large installations. All SIP-NVR models support the same software experience and provide a user friendly interface. The automatic setup process streamlines installation, each device supports mouse control, USB backup and provides support for SIP-cameras as well as other Onvif compliant cameras for freedom and flexibility.

4channel Desktop NVR with POE
1HDD: 2TB Max

4channel NVR with POE
2HDD: 4TB Max

8channel NVR with POE
2HDD: 4TB Max

16 and 32 channel NVR
4HDD: 16TB Max

Key Features

- High Profile H.264 Compression
- HD output HDMI orVGA up to 1080p/720p
- 1080p 30fps
- 4/8 channel PoE = Direct connect to camera
- Embedded InView GUI with full mouse control
- Easy to use GUI, low learning curve for users
- Multi-NVR system setup - manage up to 256 NVRs
- Smart Search
- Easy Export and Remote Saving
- ONVIF Standard Compliant

VIDEO MANAGEMENT SOFTWARE

SIP Video Management software is available for on site viewing as well as for off site monitoring via a mobile device or web browser. eLine Technology's "SIP NVR" manages systems connected to an NVR and the "SIPView" mobile app is used for IPcameras with edge storage.
